

PRODUCT CODE: SBELW-PRO

PRODUCT NAME:

LIVE WIRE Premium Cross Over Tower Harness.
Adjustable Pole Strap Attachment + Alloy Buckles +
Padded Chest, Seat and Air Mesh Waist

DESCRIPTION

The Live Wire gives you a new level of comfort, flexibility and safety.

Combining elements of our SBE9 Crosslink Harness, SBETH Tower Harness and Arborists Harness, the Live Wire is a harness you can comfortably work in for hours.

APPROVALS

STANDARD

Certified to: AS/NZS 1891.1:2007

FEATURES

- Webbing dorsal ring.
- Front and rear fall arrest D-rings.
- Fully padded lower back and seat for extra comfort.
- Fully insulated dielectric upper body hardware.
- Alloy components - lighter and less prone to corrosion.
- Crosslink design to take stress off the shoulders and provide a greater range of movement.
- Pole strap attachment points that guide the forces through the buttocks instead of the back.
- The unique design helps eliminate suspension trauma when the user is suspended from the front D-ring or side pole strap rings.
- The leg fastening straps do not pass through the groin area which helps relieve pressure and circulation problems in fall situations.
- The adjustable seat and wide back padding provides comfortable support when working under work-position tension for long periods of time.
